Applied Quantum Physics:

Pathological biochemical pathways cured by high homeopathic potencies of their substrates, inhibitors and enzymes

Karin Lenger

Pathological biochemical pathways cured by high potencies of their substrates, inhibitors and enzymes." Dr Karin Lenger, Institute of Scientific Homeopathy, Offenbach, Germany

Institute of Scientific Homeopathy – Dr. Karin Lenger

Kaiserstraße 28 – D-63065 Offenbach – E-mail: Dr.Karin.Lenger@t-online.de

Fundamental Law of Homeopathy

Law of Similars: Similia Similibus curentur

A patient having symptoms gets that homeopathic remedy
which causes the similar symptoms
in a healthy person
after a poisoning
with the material substance of the remedy

ISH

Production of homeopathic remedies according to HAB:

Hahnemann's method = Several vessel method :

1 g substance or the ethanolic mother tincture \emptyset

is diluted or triturated in lactose one after another

1: 10 \rightarrow D – potencies = D1 or

1: 100 \rightarrow C – potencies = C1

Between every dilution step a shaking or succussion of

10 x times by hand follows

This is repeated more than 1000 times \rightarrow D or C 1000

Production of homeopathic remedies

Korsakovian method = one vessel method: no concentration

starting with a C3, which is succussed 10 x times and then poured away till only one small drop is resting in the vessel

The original volume is refilled by ethanol

10 x times succussion follows and then poured away = 1K

The original volume is refilled, 10 x times succussion follows and then poured away = 2K → 50MK → 100MK → MMK

the succussion is made by machine not by hand

Avogadro Constant, Loschmidt Constant

1 Mole of a stuff contains $6,2 \cdot 10^{23}$ particles

1 Mole = atomic weight in g, e.g.: NaCl : Na = 23
Cl = 35

1 Mole of NaCl = 58 g diluted 24 times 1:10 =

no molecule can be found

To create a D22 or C 10 :

1 g NaCl (0,0172 Moles) + 9g lactose are taken

If the Avogadro constant is crossed by dilution steps

no more molecule is in this remedy, only energy

Homeopathic therapy

During an anamnesis of a patient

a) Psychological symptoms and

b) the symptoms of the body are registered

then by repertorization the symptoms the **most similar**

remedy is searched and given to the patient

Then the patient has to wait for curing

1 week, 2 weeks, 3 weeks and so on...

Homeopathic therapy

No laboratory values are considered

No ideas about pathological biochemical pathways

Repeating of only one remedy is e.g. in one month

ISH

Homeopathic therapy

Dr. Wilhelm Heinrich Schüßler, 1821- 1898, homeopath

who invented a reduced homeopathic therapy using

potentized mineral salts

→ **Biochemistry according to Schüßler**

was the only homeopath who told

that the potentized mineral salts

cure according to their biochemical function

Efficacy of homeopathic remedies

without any molecule

It is an energy, photons are healing according to the

resonance principle

Lenger detected photons in highly potentized remedies with

a) resonance frequencies in the MHz-region,

b) measured the potency levels and

c) the frequency spectra

Lenger applied two magnetic resonance method

Institute of Scientific Homeopathy – Dr. Karin Lenger

Kaiserstraße 28 – D-63065 Offenbach – E-mail: Dr.Karin.Lenger@t-online.de

Results of both methods confirm each other

- 1. Homeopathic remedies are photons magnetically bound to their carrier substances:
water, ethanol saccharose, lactose**
- 2. They have more than one resonance frequency**
- 3. The degree of a potency is measurable**
- 4. Identification by a frequency spectrum is possible**
- 5. quality control of remedies is possible**

Law of similars: Similia Similibus curentur

Basing on Lenger's detection of photons in homeopathic remedies

the law of similars can also be expressed as

The frequencies of the remedy must match the frequencies of the ill patient.

Homeopathic remedies cure according to the resonance principle

Curing according to the resonance principle

On condition that this is possible

The Einstein equation must be concerned:

$$E = m \cdot c^2 = h \cdot \nu$$

E = energy, m = mass, c = light velocity,
h = Planck constant, ν = frequency

Quantum physics: $E = m \cdot c^2 = h \cdot \nu$

E = energy, m = mass, c = light velocity,
h = Planck constant, ν = frequency

The Einstein equation means

**that energy is converted to matter and
matter can be converted to energy**

All matter is only energy ,

an electromagnetic wave packet

Curing according to the resonance principle

Assumption:

Health:

Biochemical pathways

consist of

their specific frequencies

Curing according to the resonance principle

Illness: Pathological biochemical pathways

consist of **other frequencies**

which must be **attenuated by resonance**

by their **similar homeopathic remedies** being

a) potentized substrates,

b) inhibitors and

c) enzymes of the body, **the original similars**

Curing according to the resonance principle

Pathological pathways are characterized by

- 1) Laboratory values
- 2) Homeopathic symptoms
- 3) Frequencies which are mostly unknown today

ISH

Curing according to the resonance principle

A group of 25 patients have:

Common laboratory – values:

Low Fe⁺⁺ - values, low Ferritin values, low hemoglobine

Common homeopathic symptoms:

terrible whooping cough, asthma

cramps in the muscles, paralyses

Weakness, faintness

Curing according to the resonance principle

Involved biochemical pathways:

Blood: low hemoglobine,

transferrine, protein for the transport of Fe^{++}

Liver: ferritin, protein for storing Fe^{++} ,

Respiration chain, electron transport:

Cytochrome a (Fe^{++}),and b (Cu^{++}) ,

**available as homeopathic remedies in LMK or 50MK:
Ferrum met, ferritinum, hemoglobine, cuprum met.**

Homeopathic therapy

cause of low Fe⁺⁺, ferritin, hemoglobine

Vaccination or infection by:

Bordetella pertussis

Haemophilus influenza

Chlamydiaceae

Hepatitis

Malaria

These bacterias and viruses need Fe⁺⁺
for their nourishment

ISH

Curing according to the resonance principle

Lethal Inhibitor of the Fe^{++} pathways are

Kalium cyanit (KCN) and Hydrocyanicum acid (HCN)

they form a hexacyanoferrate-complex , so that the iron

cannot be proved by normal chemical assays:

it is hidden or „lost“

ISH

Curing according to the resonance principle

as homeopathic remedies

Kalium cyanicum and

Hydrocyanicum

restore the iron in the respiration chain and

cure the asthmatic cough

So Kalium cyanicum and Hydrocyanicum in LMK-potencies

are added daily for 4 weeks

Patients with low iron and Hb – values: important examples:

	Fe++ - values		Hb- values	
Patients	before hom. treatment	after hom. treatment	before hom. treatment	after hom. treatment
patient L., 5 years old,,	22 µ/dl	56 µg/dl	12,0 µg/dl	13,4
♀ patient B., 65 years old			9,6	12,8
patient G., 61 years old, ♂ after an operation			6,6	10,5 after 3 days 14,3 after ½ year

Curing according to the resonance principle

within 6 weeks

The Fe⁺⁺ - values,

Ferritin - values,

Hemoglobine - values of 15 patients

became normal

ISH

Curing according to the resonance principle
But the symptoms of 10 patients having porphyria
increased

Asthma, paralyses, aches in the abdomen,
weakness in the muscles

Laboratory-values of

Fe⁺⁺, ferritin, hemoglobin did not remarkably increase

Another biochemical pathway had to be considered:

the synthesis of the porphyrine-ring

Curing according to the resonance principle

Other pathways responsible for the

synthesis of the porphyrine-ring in the

heme, cytochrome a and b must be considered:

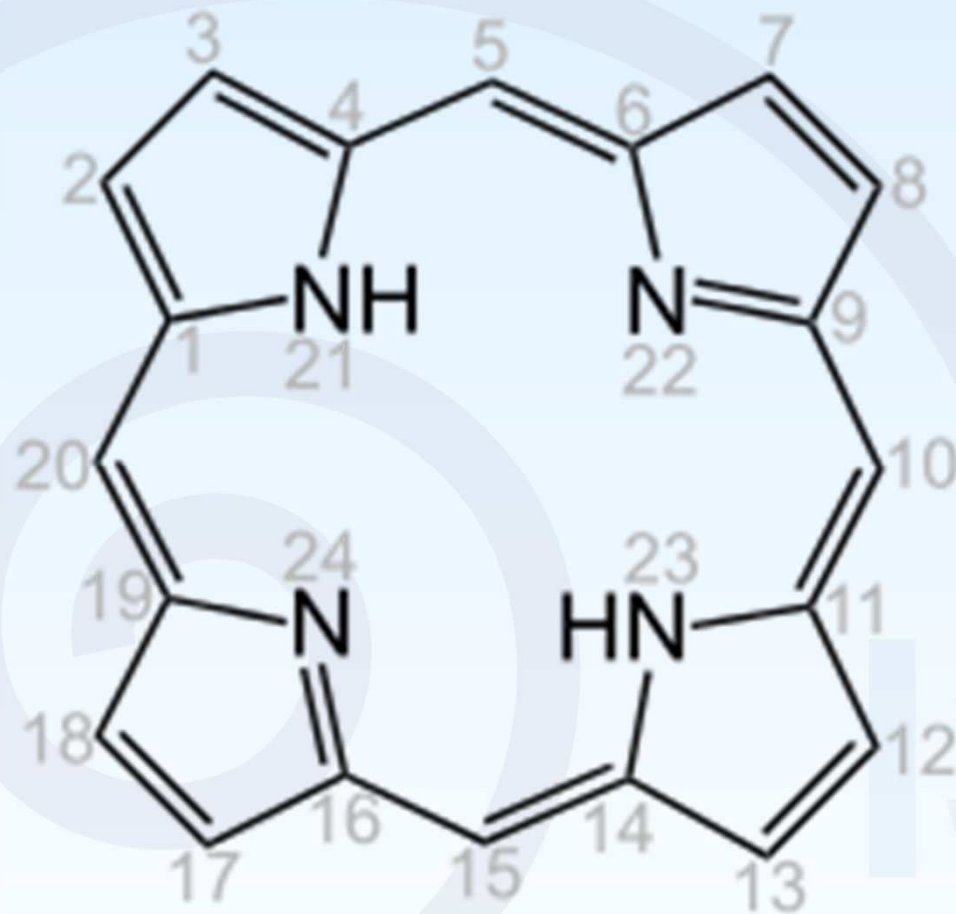

Glycolysis,

Citric acid cycle, Krebs cycle

Glutamate, glycine

amino acids, N_2 – donators for the porphyrine ring

Porphyrine-ring: in the middle Fe^{++} is covalently bound . Source of the formular Wikipedia

Curing according to the resonance principle

Following homeopathic remedies in LMK-potencies are available:

glycolysis	Citric acid cycle
Glucosum +Phosphorus	Oxalaceticum acidum
Adrenalinum or Insulinum,	Citricum acidum
Glycerinum +Phosphorus	Ketoglutaricum acidum
Pyruvicum acidum	Succinicum acidum
Coenzyme A	hemoglobinum

Glutamicum acidum instead of glycine

all are applied every second day

to the patients including the resting remedies of iron

Curing according to the resonance principle

After 6 weeks the laboratory values became normal

The homeopathic symptoms were cured

ISH

Curing according to the resonance principle

5 patients needed for their complete curing of asthma and paralyses

the following remedies in LMK-potencies:

Arsenicum album, lachesis mutus, crotalus horr

The lethal inhibitors

arsen, the snake venoms of lachesis mutus and crotalus horridus

attack the phosphorus bonds and -SH.groups of
of the glycolytic pathway

Curing according to the resonance principle

The individual symptoms of the patients decide to apply the individual remedy:

Arsenicum album	Lachesis mutus	Crotalus horridus
Fear of death, obsessions	Fear of death	depression
Not able to be alone	Logorrhoe, sweat during night	right side neuralgia
love sweets	low blood pressure	Inflammation of the glands
diarrhoe	left side trigeminus neuralgia	
cramps in the abdomen	jealous	

Curing according to the resonance principle

These 5 patients have a chronic disease

The homeopathic therapy shown here

helped to reduce the

difficult symptoms of consciousness and body of these

patients during years

The laboratory values became not so worse

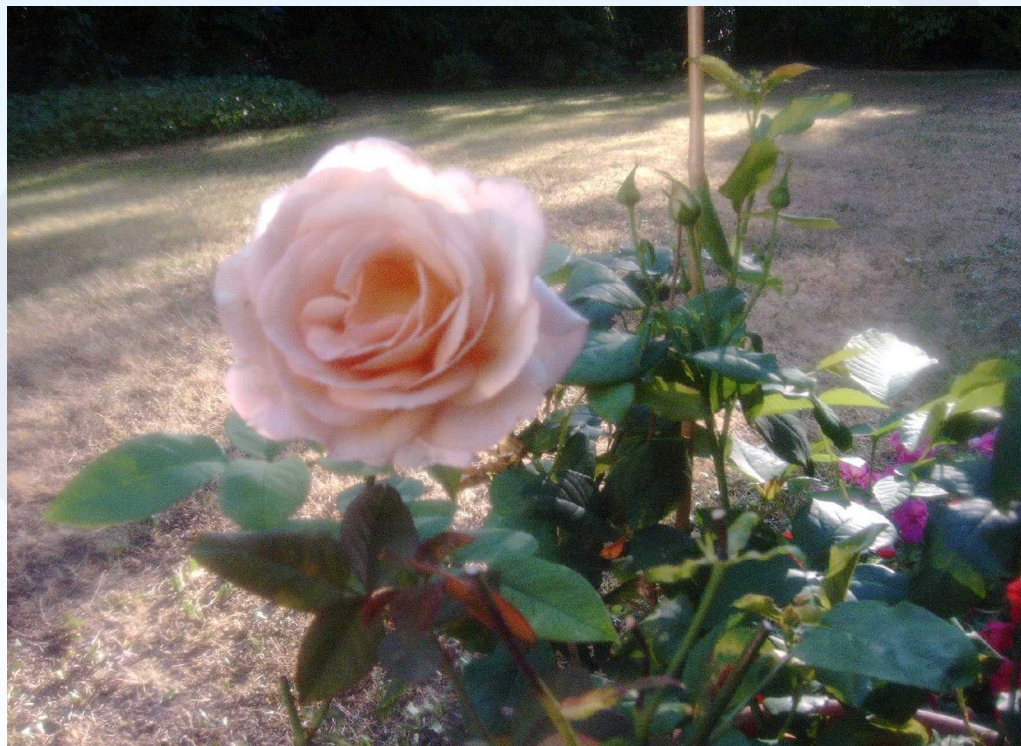

Conclusions: For the first time it is shown that in high homeopathic potencies

- 1) biochemical substrates, inhibitors and enzymes are able to cure the illnesses of the patients
- 2) homeopathic therapy can be applied according to biochemical pathways
- 3) laboratory values control the curing by the remedies
- 4) a lot of similar remedies are applied daily or every second day, a revolution in homeopathy

The end

Thank you for your attention

I wish you a nice day:
